

Ora moved

*Ora did heroic deeds.
Now it are memories.*

*Ora climbed the highest top in several countries
like Galdhoppigen (Norway), Triglav (Slovenia), Ben Nevis (Great
Britain) and Mont Blanc (France and highest top of the Alps).*

*Nothing was too heavy. Only arthrosis and arthritis in the left elbow
and in her back were too much for her in a too quick time of only some
months.*

*Ora is een unieke dog. She is irreplaceable. There are no other dogs like
her.*

*She will be for ever in our thoughts.
Her new house is in our heart.*
